

Dear Benefactors

Several Sources Shelters is one of the best organizations I have ever found. It means so much to me and my new born daughter Kian Dior. This Foundation does a lot of great things for the moms. I was given a car to be able to transport my baby girl to the hospital and get to work. With all the amazing things they do they still find time to work with each girl individually on any life issues they have. If it wasn't for Several Sources Shelter my baby wouldn't have come home to a room with everything she needs. If it wasn't for Several Sources Shelters my baby wouldn't have a home to come to. I just want to thank the Benefactors. Thank you for believing in this foundation. Thank you for all your contributions. I have learned kindness and the act of giving with no expectation. Since being apart of this foundation. I have also realized prayer does work. The Lord is with me and looking over me and lead me to Several Sources Shelter. Thank you again for every thing you do.
